Saida Bilqiis Bajeh

Civil Engineer · Site & Project Engineering

Abuja, Nigeria | linkedin.com/in/bajeh-saida-55382727a | bajehsaida196@gmail.com | saidabajeh.online

PROFILE

Civil engineer (B.Eng., Air Force Institute of Technology; Graduate Member, NSE) with hands-on experience taking residential buildings from structure to handover, supporting a 21 km federal highway, and running project controls for an industrial client. Strong in site supervision, quality control, scheduling, materials and progress reporting, and in keeping owners, consultants and contractors aligned on budget and programme.

EXPERIENCE

Project Engineer, International Breweries · Onitsha, Anambra

- Reported planned versus completed activities by work area, with planned-versus-actual percentages and installed quantities.
- Tracked labour and plant deployed against requirement, and materials required, delivered, installed and outstanding, flagging procurement constraints and required-by dates.
- Kept technical and quality status current: inspections, approvals, defects, close-outs and supporting records.
- Explained every delay and variance with an owner, recovery action and revised date, alongside a dated look-ahead of risks, mitigations, decisions required and progress photographs.

Site Engineer, EN-GRAZID Nigeria Ltd (NYSC, then full-time) · Abuja 2024 – 2026

- Riverpark Estate: structural and MEP coordination on a three-floor-plus-penthouse residential building; site surveys, shop-drawing reviews, value engineering, QC inspections and punch-list close-out before handover.
- Kabusa Garden Estate: ran day-to-day operations on a three-bedroom semi-detached build, scheduling contractors and deliveries, inspecting work against specification and resolving technical issues on site.
- Led the interior renovation of a three-bedroom duplex at Riverpark, from demolition and framing to finishes and MEP fit-out, delivered on schedule and within budget.

Project Manager, Sunnyvale Residential Development · Kabusa, Abuja 2025

- Led pre-construction planning, permitting and contractor selection for a block of three-bedroom apartments.
- Built and maintained the Gantt / critical-path schedule and budget forecasts; managed capital disbursements to protect cash flow.
- Negotiated subcontractor agreements and prepared investor and board reports on performance and risk.

Assistant Site Engineer (Student Intern), Setraco Nigeria Ltd · Abuja 2022 – 2023

- Southern Parkway, Abuja: 21.05 km federal highway from Christian Centre (S8/S9) to Ring Road 1, phases I and II.
- Assisted with the analysis and design of culverts and retaining walls.
- Monitored contractor work against specification and safety standards; kept material quantity records and equipment assessments.

EDUCATION

B.Eng. Civil Engineering, Air Force Institute of Technology · Kaduna 2018 – 2023
